About Me

Enthusiastic Computer Science graduate with a specialization in Software Engineering, skilled in Dart, Flutter, Firebase, Python, Java, React.js and more. Passionate about crafting user-friendly mobile and web applications that seamlessly blend innovation and functionality. Adept at translating client needs into captivating designs and implementing efficient solutions. Seeking a challenging software development role to leverage technical expertise and contribute to cutting-edge projects.

Education History

BACHELOR OF COMPUTER SCIENCE (HONOURS)
International Islamic University Malaysia
CGPA 3.62 | February 2019 - Aug 2023

- Specialization in Software Engineering
- KICT Dean's List for 5 semesters
- Winner of the BRONZE AWARD at the KICT Final Year Project (FYP) Showcase

Work Experience

FLUTTER DEVELOPER INTERNSHIP AT TECZO SDN BHD
teczo.co
Nov 2022 - May 2023 (6 months)

- Developed a responsive web application using Flutter SDK, ensuring seamless user experiences across devices.
- Designed intuitive layouts and navigation for enhanced user engagement.
- Created and maintained backend services utilizing Firebase, with a focus on Cloud Firestore and Firebase Authentication.
- Collaborated with cross-functional teams to deliver feature-rich and performance-driven solutions.

FREELANCE FLUTTER MOBILE APP & UI/UX DESIGNER
Fiverr.com & With local clients
Oct 2021 - Sep 2022 (1 Year)

As a freelance developer and designer, I created customized mobile apps using Flutter, Firebase, and Figma. Translated client visions into intuitive designs, implemented robust front-end and back-end solutions, and delivered projects on time.

- Crafted tailored mobile apps using Flutter, Firebase, and Figma for diverse clients.
- Translated client ideas into intuitive, visually appealing designs.
- Delivered projects promptly, ensuring client satisfaction.
